

Operation Emancipation Occupation

Masterclass For Internet Marketing Movers & Shakers

Day 1 Action Steps:

- 1) Figure out what you're good at and sell it on Fiverr. Don't know what you're good at? Try this for starters...pick **3** things below that you're good at:
 - writing
 - proofreading
 - excel spreadsheets
 - computer programming
 - video editing
 - voice overs
 - singing
 - seo
 - building websites
 - wordpress skills
 - graphics and/or design
 - dancing
- 2) After choosing 3 things in the previous list, create **2-3** variations of each gig. For example, if I'm good at proofreading, then that will be one of my gigs. Search "proofreading" in fiverr and you will see some gigs. You can make similar ones such as:
 - I will proofread a 350 page article in 24hrs.***
 - I will do an amazing proofread of 250 words by tomorrow***

Make your headline stand out and start out with doing it in 24hrs. After you' sold a few gigs, I recommend you change it from 24hrs to a few days...however long you need it to be.
- 3) Download my FREE ebook 10 Proven Gigs That Make Money On Fiverr
- 4) Make sure to watch Day 5 to download my FREE video course The Fiverr Virtual Assistant. This is a \$27 product that gives TONS of details and ideas for gigs and

services so you can make a lot of money on fiverr.
